■ Capgemini Pvt Ltd., India

Hyderabad, TS, India

▲ Sr. Analyst/ Software Engineer

Jan 2024 – Present

Analyst/ Software Engineer

Jun 2022 – Dec 2022

Software Engineer Intern

Jan 2022 – Jun 2022

Currently serving as a Senior Analyst / Software Engineer at Capgemini Technology Services, contributing to developing and implementing software solutions. Responsibilities encompass:

- Developed and maintained responsive web applications using React JS and Mobx.
- Implemented unit tests using Jest to ensure code quality and stability.
- Created and maintained REST APIs in microservices using Spring Boot.
- Working on various technologies like Kafka, Redis, and Caffeine to enhance API performance.
- Participated in code reviews, providing constructive feedback, and ensuring adherence to coding standards
- Assisted in the optimization of web applications for performance and scalability
- Collaborated with cross-functional teams to design and implement user interfaces that met client requirements and provided a seamless user experience

## CERTIFICATIONS:

- AWS Certified Cloud Practitioner Oct 2022
- META Frontend Development May 2024
- CutShort Certification in JavaScript & React Jun 2024
- Advance React Certified by META Aug 2024

## PROJECTS:

■ Restaurant Point of Sale Upgradation

We have worked on upgrading the point of sale of one of the biggest restaurants. We used the latest technologies, like React, HTML/CSS, and JavaScript. We maintained the project using all software life cycle methods and agile methodologies during the development cycle. GIT version control is also used to store the code in respective repositories and operate on it.
